Business Cooperation

Open Market Cooperation

In the later stage, a distributed task platform and self-generated digital athlete cards will be provided.

Introduce the approved brands or categories to post tasks on the platform. Registered athletes can choose partners from the supplier list and complete the task as required to receive rewards.

Comprehensive Index

And based on the sports performance and business capabilities of registered athletes, a corresponding personal comprehensive index, will be formed, and rankings will be conducted.

Index trading can be provided in the future according to corresponding legal provisions and meeting SEC requirements.

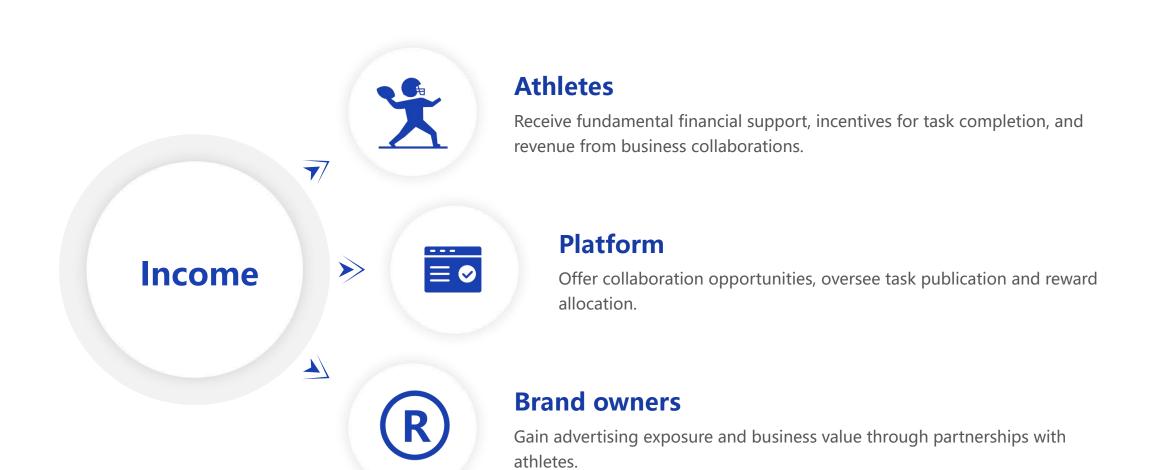

Brokerage Market Cooperation

The brand owner selects the designated athlete based on the athlete ranking and provides the corresponding business cooperation tasks. Both parties complete the task claim in a bidding mode.

After completing the brand merchant task, they receive corresponding rewards in an agreed manner.

Income Distribution:

The future direction of development:

Expand collaborative brand partnerships and diversify product categories, while enhancing the range of tasks available for selection.

Provide more personalized business training programs to enhance athletes' entrepreneurial skills.

Explore opportunities in index trading market to maximize revenue generation potential for athletes.

We strive to offer comprehensive support to athletes in order to maximize their commercial potential, while providing an efficient platform for brands to collaborate. Through continuous efforts and innovation, we will generate more business opportunities and value for both athletes and brand owners.
